

Вступительный тест по английскому языку для 9 класса

Task 1

Answer the questions (give full answer):

- 1 What is your favorite hobby and why do you like it?
- 2 How often do you do your hobby?
- 3 Do you prefer indoor or outdoor hobbies? Why?
- 4 Have you ever tried a new hobby that was difficult at first? What was it?
- 5 Do you think hobbies are important? Why or why not?

Task 2

Read and choose weather statement True, False or Not Stated.

WHAT IS A SEQUOIA?

Sequoias, or redwood trees, grow in the western United States, mostly in California and Oregon. Sequoias are some of the oldest living things on earth. They are also among the biggest. They often grow more than 30 meters high.

To tell the age of a tree it is necessary to cut it down. The trunk of the tree has rings. There is a ring for each year of life of the tree. One sequoia had 3,000 rings! Some sequoias are even older.

Sequoias are evergreen trees and their bark is very tough. It is about 15 centimeters thick and is almost fireproof. The fireproof bark has helped sequoias live through many forest fires.

- 1 Sequoias grow in California and Oregon.
- 2 Some sequoias are older than 3,000 years.
- 3 People can tell the age of a sequoia without cutting it down.
- 4 Sequoias are the tallest trees in the world.
- 5 The bark of sequoias is about 15 centimeters thick.
